A REPUBLICAN TRUMPER IN MINNESOTA.—On the 2d inst., there was an election in Minneapolis for four members of the Board of County Supervisors. The election assumed a political importance of the first character from the fact that whichever party carried the day would control the party complexion of the County Board; and if the Democrats obtained a majority, they intended to create two or three special voting places for double Irish voting at the ensuing general election.

The battle was thoroughly fought, and resulted in the success of the Republican candidates by 10 majority.

FIELD'S TOURNAMENT AT MADISON.—In consequence of the informality of the proceedings at Madison, the regular competition among the Fire Companies, for the premium offered by the State Agricultural Society, did not take place; but at a meeting of representatives from the various Companies, it was resolved to divide the prize money equally among the competitors.

**CONVICTIONS.—A valued correspondent at Lisbon, Waukesha County, writes to correct one or two statements in the letter of "Alma C." descriptive of St. Anthony's Falls, and its surroundings. Our Lisbon friend says that Capt. Capo-
vass was from Massachusetts, instead of Connecticut; that he visited St. Anthony's Falls, for the first time, in 1870, and that his book of travels is couched in very good English. Our correspondent is competent to speak on this question, since "he was acquainted with a daughter of Jonathan Garrow, which daughter was the grandmother of his wife."**

CAUCUS VERSUS CONSTITUTION.

A writer in the Sheboygan Journal, a Democratic paper, publishes a strong protest against the nomination of Judge LARABEE for Congress. We give it elsewhere and command it to the deliberation of the Electors in the Third District. The question presented to the Democratic masses in that District is simply this: Do the electors, at the bidding of a few leaders, and to gratify the vainglorious ambition of a Judge, abandon the ground which they assumed two years ago, and support a man for Congress whom the Constitution declares to be ineligible, and who votes cast for him "null and void?" Two years ago, every Democrat in the Legislature voted to sustain the riding of Lt. Governor McARTHUR, deciding votes to cast for a Judge to be "void and out of order," and every Democratic paper in the State endorsed and applauded that decision and vote. And now every Democrat in the Third District is summoned to change front on this question and vote for Judge LARABEE, and every Democrat in the Legislature voted to sustain the riding of Lt. Governor McARTHUR, deciding votes to cast for a Judge to be "void and out of order," and every Democratic paper in the State endorsed and applauded that decision and vote.

Final ball is decided to fruit as well as flowers, and presents a most gratifying sight. Every body is astonished at the display Wisconsin makes in that respect. The Free Labor Democrats of Illinois, to the last man, are leaving Douglas since the late discussions have opened their eyes to the Southern attachment he is again seeking to form. From one of them (J. B. TRUMAN, of Jacksonville, Ill.), the St. Louis Democrat has a letter from which we make an extract:

"Until last winter I regarded Mr. Douglas as the champion of our section; but now I am satisfied that he is the most obnoxious and most dangerous of all the Southern politicians. But he then came out so decidedly and manfully on the Leavenworth bill (the badge and test of their party) and the fire-eaters repudiated him, I could not but feel that it was on his side. I made a mere rush to get back into the Senate again, or that he could ever fall upon his head before them again to accept the Dred Scott test, or that they would ever consent to his being accepted. I voted, yes, more, I ploughed the floor of the Senate for him, and I am sure that every one of us who voted for him did so with enthusiasm and with triumph. I am sorry, more, that Mr. Douglas unquestionably is, had at last turned his heart, and his hopes away from this negroism of the South to the glorious freedom of the North. He is a man of great energy and ability, and I am sure that he will be a great man in the future. But that is all."

Forers, Col. CROCKER, of Milwaukee, displays some astonishing specimens. They must have been grown in Brodhead, and we wonder when the Colonel saw father GULLIVER, to obtain such a terrible deformity as he does. But I could not but feel that it was on his side. I made a mere rush to get back into the Senate again, or that he could ever fall upon his head before them again to accept the Dred Scott test, or that they would ever consent to his being accepted.
